

Brown ID Cards for ICERM Participants

Long-term visitors who are at ICERM for at least two weeks will be issued a Brown Sponsored ID card. This ID provides elevator access to the ICERM facility. In addition, your card will allow you to activate your Brown User Account which provides access to Brown's secure wireless network and other university resources.

The following instructions assume you are connected to the Brown University network [via wireless](#) (Brown, Brown-Guest, or eduroam).

Activating Your Brown User Account

Visit <https://myaccount.brown.edu/activate> and follow the instructions to activate your Brown ID card. The basic steps are as follows:

1. Enter your Last Name, Date of Birth, and Brown ID number. Your [Brown ID number](#) is the nine-digit number above your photo on the Brown ID card.
2. Accept Brown's [Acceptable Use Policy](#).
3. The system will assign you a username. Make note of this username as you will use it to connect to wireless and login to Brown services like Workday and online library resources.
4. Finally, create your Brown user account password.

Note: You only need to activate your Brown ID card once.

Managing Your Brown Account

Brown's [MyAccount](#) portal is available to manage your Brown account. This portal provides a function such as changing your password and modifying two-factor authentication configuration for users who have Duo 2FA enabled.

If you have questions about these instructions or require further assistance, please contact the ICERM IT staff by dropping by the administrative offices or emailing support@icerm.brown.edu.
